

Life Support Systems was incorporated in 1992. Since then, I have been fortunate enough to have lived the American dream of owning my own business.

My wife Linda and I literally started the company in our home garage. In the beginning, several friends gave us old computers, cars, and even money. Over the years, we have been blessed to have known many outstanding employees and heartwarming patients.

We bought our current building in 2003 and employ more than 50 associates that provide the "support" in Life Support Systems.

Our family found that the formula for our success is faith in Jesus Christ, passion, risk-taking,

and stubborn perseverance.

There are many challenges ahead of us and we look forward to meeting each with enthusiasm.

When asked to describe his role in the success of Life Support Systems, Ray's response was... **"I drive the bus."**
